The anti-theft software checks on the user through password authentication when the phone is powered up. If it is an unauthorized user, it sends SMS text alerts to notify the theft to help track down the thief through alert SMS text, IMEI, and even thief's contact number when the phone is stolen.

SMS Text Alert When an unauthorized user uses the mobile phone, SMS text* will be sent out to alert (e.g. spouse, colleague, IT dept) about the theft.*Thief's own phone number, IMEI (International Mobile Equipment Identity) and phone model.**Auto Start Up** PhoneBAK autoruns every time the phone is powered up. Low Memory Resource PhoneBAK will automatically shut down once SIM card is authorized.

Data Protection: Optional features to perform a 'Hard Reset' to remove all files, photos, videos, folders from the internal and external storage card to protect confidential information.

Supported Language: English.

Stolen
or
lost

Why PhoneBAK SE?

'For a one time purchase from a reputable company reported by the international newspapers and tv, it gives me the assurances and guarantees I needed.'

Ms. Michele Mitch.

'All the customers' contacts are in my phone, it is a lifeline to me for my kind of work.'

Mr. Alex Yong. Insurance Agent.

'Brilliant idea! And the support is fast and efficient.'

Mr. JM MORAND. Paris, France.

'Cost of PhoneBAK Mobilephone software definitely beats paying for a full price replacement!'

Mr. Richard C. Marketing Executive..

Frequently Asked Questions

i. How do I know if PhoneBAK (PDA Phones & Mobile phones) works?

When the SIM card is changed for one that has not been authorised, PhoneBAK will silently send a SMS to the pre-defined mobile phone number. This can be tested during installation

It is important to test out the pre-defined local number by simply interchanging with another SIM card first before actual use.

ii. How do I install the software?

There is a step-by-step installation guide included with the package.

iii. Is there any technical or local support?

PhoneBAK is supported worldwide via email and in various countries through our partners. For a full list of partners please email support@exactTrak.com

iv. Can I use the same program for any other devices?

Each copy of PhoneBAK program is licensed to only a single registered device. It is non-transferable.

v. Who will recover the lost device?

If you have reported the loss of your mobile phone to the Police, you should provide them with all the tracking information that PhoneBAK will send to your nominated receiver.
